Joseph Ebeling, SSM, CSM, CSTE

Retired Certified ScrumMaster, SAFe®6
Rosharon, Texas, United States

Summary

Scrum Master and Agile methodology professional with QA/QC leadership and execution experience in manual/automated software testing, product release and process management. Looking for a position to employ my abilities to plan, manage, and execute delivery of software deliverables throughout all testing phases and releases of the SDLC. Additionally, looking to take advantage of my strong organizational skills and team building as well as my skills in creating and executing manual and automated test cases and scripts based on customer requirements and design specifications. Excellent communicator with problem solving skills in managing internal team dynamics and negotiating and managing internal and external customer expectations.
