Professional Scrum Product Owner™ II (PSPO II)

Robert Hobbs

Product Owner at BuildOn Technologies

Conroe, Texas, United States

Experience

BuildOn Technologies

10 years 5 months

(remote) Product Owner

June 2020 - Present (6 years)

As the Product Owner for VEO Design Studio, my mission is to be attentive to our customers, leadership and development team in crafting a vision for the product that empowers our users and grows our business. My development background helps. Activities include: ownership of our product backlog, writing user stories, creating wireframes or storyboards, setting sprint goal and planning, daily interactions with the dev team, delivery of the work into a release, communication of features to our stakeholders, consideration of vendors and strategic partnerships and numerous other business facing interactions to make the product better.

Agile Coach / Scrum Master

January 2016 - June 2020 (4 years 6 months)

Houston, Texas, United States

Scrum Master for a productive distributed agile team creating industry leading solutions for home builders. My role is 90/10 Agile Coach / Developer. Manage and customize all Scrum artifacts, create workflows for PBI refinement with my PO, remove impediments, tracking team performance (velocity, cycle times, rejection rates, others) and also leveraging coding experience to help with code reviews and technical designs.

ePlan Partners

Full Stack Engineer

January 2010 - January 2016 (6 years 1 month)

Houston, Texas

Full stack developer on our Web SPA/SAAS offering to residential home builders and design centers. Various roles from design/architecture to implementation. Some pair programming, mostly solo work. Stack: Durandal (Javascript/knockout), Web API, MS SQL, GIT, Unit Testing, Postman, VS 2019.

Honest Project, LLC

Java / Grails Software Engineer

November 2009 - June 2010 (8 months)

Worked on a very limited basis on the project management platform, and a side project involving an OpenSwitch customization.

Technigencia.com

Founder - Training Software

January 2008 - January 2010 (2 years 1 month)

Technigencia was an ERP software venture, focused on building training solutions for the SAP market. The company is currently on hold while I pursue other interests.

While active, we helped a variety of clients with eLearning development projects in SAP and Microsoft ProClarity. Work fell into two main categories: development of software tools to manage training projects such as user and course mappings, role mappings, and course scheduling; and actual training material development in PowerPoint, Adobe Captivate, uPerform/InfoPak.

DevelopMentor

Contract Technical Editor / QA

February 2006 - March 2007 (1 year 2 months)

Worked as a technical editor for DevelopMentor on several of their programming training courses related to .Net development.

Courses included: Essential VB.Net, Essential ASP.Net, and Sharepoint 2007

Primary activities included proofreading of course materials and testing of code snippets for accuracy.

OBIS Software LTD.

Director of Development

January 2000 - December 2005 (6 years)

Manager and senior software developer for a group authoring an enterprise-wide operations system for a 100M+/year home building services company.

Hired as a VB.Net developer, proceeded to work in multiple roles, including Project Lead and ultimately managing the team.

Top Dog Software

Game Programmer

May 1997 - November 1997 (7 months)

Worked as a junior programmer on an image utility for a Sony PlayStation title (High Heat Baseball), and a PC title (unpublished).

Intracorp Entertainment

Technical Writer - Game Manuals

July 1994 - July 1996 (2 years 1 month)

Worked my way through university as a Technical Writer. Created manuals for software releases: Harpoon II, Witchhaven, TekWar, Chronomaster.
